

Microsoft Authenticator

Enrollment Process

Upcoming Change to Student Sign-In Process

Starting July 15, 2024, students will no longer use their 'A' number to sign in to College Services. Instead, you will use your my.gulfcoast.edu email address and authenticate through Microsoft.

**To ensure a smooth transition and avoid any disruption logging into Canvas you should log into your Gulf Coast email prior to July 15th 2024.

[Log into your Gulf Coast Email](#)

Login using your @my.gulfcoast.edu email address and myGCSC password. If you do not know your student email address, you can find it by logging to MYGCSC, go to "My Personal Information" tile – click on "Personal Information" - your student email should be under "Official Communication for students"

Official communication for students - @my.gulfcoast.edu
username@MY.GULFCOAST.EDU
Automatic updated this record via institutional rules
(Not Updateable)

If this is your first-time logging into your Gulf Coast Microsoft 365 account, you will be prompted to set up Multi-Factor Authentication (MFA) using the Microsoft Authenticator App.

You should be prompted that More information is required. Clicking Next will begin the MFA enrollment process.

The following steps will guide you through setting up Microsoft Authenticator with your account.

j[redacted]80@my.gulfcoast.edu

More information required

Your organization needs more information to keep your account secure

Next

[I want to set up a different method](#)

IMPORTANT NOTES:

*Be sure you are downloading the app that has **MICROSOFT** in the name (see icon below). It may be the second option in the list.*

*It is important that you follow these instructions and do not click ahead in the app. It is **VERY** easy to miss one of these steps if you do not follow the steps closely.*
