Degree differences

Associate of Arts
Associate of Science
...But what's the difference?

- **Associate of Arts Degree** -

- University Transfer Degree – a two-year degree designed for you to transfer to a Florida public four-year institution as a junior to complete a bachelor's degree program. The A.A. degree provides the courses of study equivalent to those offered in the freshman and sophomore years at Florida's state colleges and universities, or you can choose one of GCSC's 4 Bachelor Degree programs
- The AA degree requirements consist of general education requirements and electives to prepare for a Bachelor's degree
- Many majors at the universities require specific courses to be taken as part of the AA degree, both within general education and within the electives. Known as common prerequisites, these specific courses are to be taken prior to transferring by all students who plan to enter a particular major within the university system
- GCSC University Transfer Tracks are designed for a student who plans to earn the Associate in Arts degree and transfer to one of the state universities or state colleges in Florida as a junior.

- **Associate of Science Degree**

- Workforce/Technical Degree - a two-year degree designed to teach you the skills and credentials to enter the workforce
- Not intended to transfer to a university but some courses may be applied to an AA/Bachelor's degree program

- **Certificate Programs-**

- Highly specialized programs that vary in length as indicated by state frameworks and prepare a student for immediate employment in a particular field

- **Bachelor of Applied Science (B.A.S.)**

- The B.A.S. degree is a baccalaureate degree designed to prepare students to enhance and/or advance their career
- GCSC B.A.S. degrees include Digital Media, Organizational Management, and Technology Management
- Students must complete an A.S. degree in a business or technology related discipline OR an A.A. degree to be eligible for a B.A.S. program

- **Bachelor of Science in Nursing (B.S.N.)**

- The Bachelor of Science in Nursing program is an RN-BSN completion program that builds from associate in science degree coursework, allowing an RN with an associate's degree in nursing to earn a Bachelor of Science degree

Major Electives (17 credits)

The purpose of this transfer track is to prepare students for entering an engineering school. Engineering is a limited access program at most universities. Chemical engineering majors are required to have CHM 1046/1046L, CHM 2210/2210L, and CHM 2211/2211L completed before entering the chemical engineering program. Each area of engineering may also be further limiting. For example, the University of Florida requires a 2.5 GPA in the A.A. degree but could require a 2.8 GPA in calculus and physics courses (first attempts only) to major in electrical engineering. Students are encouraged to be familiar with the admissions requirements at the university they plan to attend.

Placement Testing

- Some FTIC students are required to take some form of basic testing for placement in English and Mathematics
- Students may meet this requirement in several ways: ACT, SAT CLT, or PERT (Scores cannot be older than 2 years)
- Placement testing is Not required if you are **Flexible Placement** (attended a Florida public high school for all 4 years, and graduated with a standard high school diploma)
- The PERT placement test (Reading, Writing, &/or Math) can be taken at our Testing Center

- How many “hours” are you in class in a week?
- 1 credit hour = 50 mins
- 3 credit hours = 150 mins or 2.5 hours in class a week
- For every credit hour, plan on spending 2 hours on homework outside of class
- 12 credit hours is 10 hours a week in class + 24 hours of homework = 34 hours a week
